

A leader doesn't follow steps, **he marks the way.**

FEATURES

- * This Aluminum Road Stud with a tempered glass sphere inside helps to get higher lighting over great distances day and night.
- * Three times lighter than a steel road stud but with the same resistance.
- * It works perfectly as a speed hump in pedestrian and school crossings or as a delineator in lanes and parking lots.
- * The body doesn't deform, and has great durability and high corrosion resistance.
- * The sphere material is thermal tempered glass which means that in case of rupture, it breaks into small and inoffensive pieces making it 100% safe.
- * Easy to install on every road surface.

TECHNICAL SPECIFICATIONS:

Body

- * **Material:** A380.2 Aluminum Alloy.
- * **Measures:** Diameter: 7.08 in. Height: 2.16 in.
- * **Line color:** Natural.
- * **Weight:** 2.99 lb.

Sphere

- * **Material:** Thermal tempered glass.
- * **Measures:** Diameter 3.93 in. Height: 2.08 in.
- * **Color :** Natural.
