

Leader don't follow steps
... marks the way

WHAT IS THE SOLAR CONFY-BIKE?

Channelizers and delimiters are an easy and simplest and reliable form to create assigned room in streets and avenues to facilitate cyclists protected tracks.

The Solar Confi-bike is one of the latest engineered product developed to this purpose, where we are putting all our experience to promote more green and healthy cities.

The Confi-bike series are traffic channelizers designed to appear in action in darkness and rainy conditions to create more secure zones with no accidents at all for pedestrians and cyclists. And other alternative transportation commuters.

Features

- Solar luminous bollards for create protected bicycles lanes.
- Modern, with an elegant design, manufactured in one piece of yellow polyethylene with moisture, oil and weather resistance and also with UV protection.
- Its main purpose is to mark bicycles lanes everywhere.
- Without sharpen parts to make a total harmless street equipment.
- The anti-skid relief avoid cyclists falls if a wheel tumble with them.
- Great visibility at long distance with reflectives on ends, at sides and night lights too.
- The solar bollard has a gravure of bicycles aside. Each bollard can carry your message, logo or city emblem.
- Easy to install and easy to take off too, so you can put in some other place.

ILLUMINATION SYSTEM

- The Solar Confi-Bike is an intelligent solar light feeded system composed of:
- Solar Cell, a 6 led ultra-brilliant cluster 5 mm each and acrylic mica to protect it and to enhanced light reflexion.
- Solar cell charge a battery pack that works on nights.
- This lighten bollard is also anti-weather, water and snow resistant.
- A group of solar bollard Confi-Bike can communicate themselves so it can bettering its service, producing a coordinate response, synchronizing its function by radio frequency.

Measures are nominal and can vary, between +- 2%.

Measure in inches

Measure

Total	Length: 70.86 in.
	Width: 15.74 in
	Height: 5.11 in.
Reflectives:	Amber and red
Leds color:	Amber, red or white

Anchor with 6 steel nails 1/2" x 10" and epoxic glue
