

A leader doesn't follow steps, **he marks the way.**

## WHAT'S A CATERPILLAR LANE SEPARATOR?

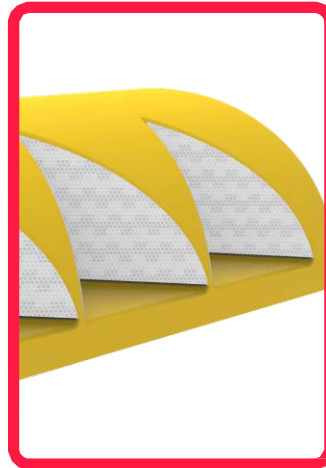

A channelizer for special lanes.

Perfect to delimit and separate exclusive bike lanes.

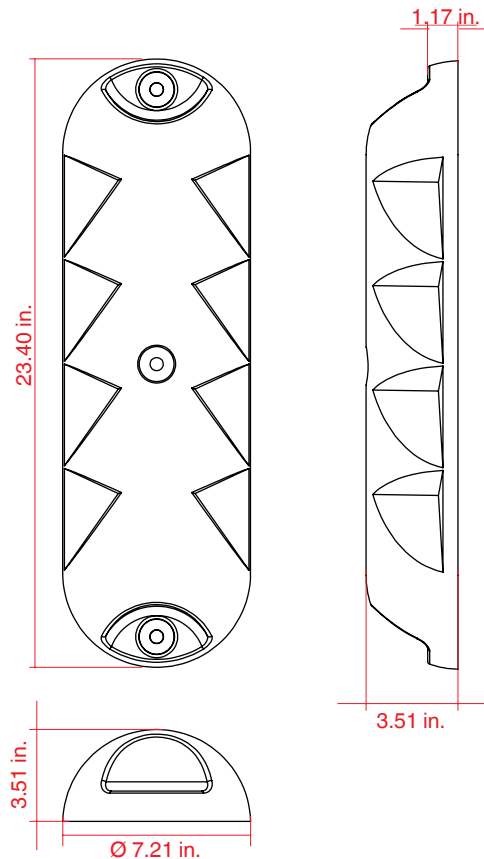

This lane separator is useful to prevent vehicles from entering exclusive lanes.

## Features

- Since it is made of medium-density polyethylene, it offers better resistance and expansion performance of its materials, even in extreme temperatures.
  - UV protection.
  - Humidity, corrosion, and weather resistance.
  - Made in one piece.
  - The high-tech design is shaped like a truncated pyramid.
  - It has the perfect height since it doesn't damage tires because it doesn't have sharp edges.
  - It includes two reflective stripes on each end that increase its visibility.
  - Made in yellow which grants it better visibility and maximum durability.
  - Easy to install.
  - It has two boreholes for fastening.
  - It has the option of adding your logo on top.
  - We can add your logo upon request.
- Minimum order of 1000 pcs.

Volumes, dimensions, and other measures are nominal and may vary by approximately 2%.

## Measures

<b>Total</b>	Length: 23.40 in.
	Width: 7.21 in.
	Height: 3.51 in.
<b>Approx. weight:</b>	9.93 lb.

Installation  
with epoxy  
glue

**Installation in asphalt**  
Steel nail (1/2" × 9.75 in.)

**Installation in concrete**  
Extralarge anchor  
(Ø 3/4" × 5.46 in.)  
Ultrafix hex-head screw  
(Ø 3/8" × 5.85 in.)
