

A leader doesn't follow steps  
... he marks the way

## FEATURES

- Semi-flexible cone.
- The **Informative Cone 100** has a great area for your messages like a warning, a product advertisement, or any campaign.
- Your message can be printed on a digital press upon request.
- It has an hexagonal base and it has the option of adding a lighten cap.
- Impact resistant.
- UV protection.
- It could be use as a traffic delineator.
- These large cones are generally used like markers on roads that temporarily redirect traffic in a safe way.
- They are used to distribute, separate or merge lanes during road construction or car accidents.
- The base can be filled with sand (included) for better stability. This way it can bear strong winds of up to 45 mph.
- It can be use indoors or outdoors.
- It complies with night work standards.
- These cones are stackable which favors their transportation.
- It has the option of adding reflective stripes.
- The reflective stripes warn drivers of low light conditions.

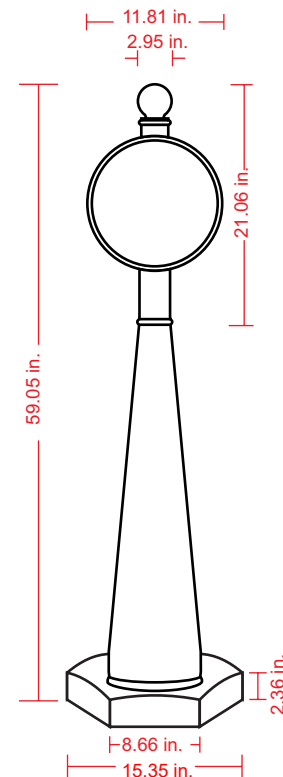

The images are merely representations of the models.
