

A leader doesn't follow ...marks the way

The street sign 770 is luminosity in all its splendor, with vandal-proof design and solar technology.

A decoration for streets, an ornament with light that brings life to avenues.

It indicate to users the name, type of road, demarcation of location, traffic flow, and in some cases the address signs of streets, avenues, and others; regardless of the time of the day, as it is visible at all times.

It is placed in a proper post or preferably an existent one at the corner of the road intersections.

Ideal in strategical zones with pedestrian flow or meeting points.

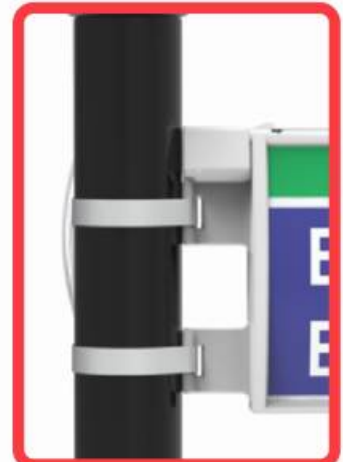

Geo-location technology with QR-code for emergencies and safety (optional).

Features

- Street Sign manufactured in lightweight body of white RCB polymer to allow the sunlight pass through, designed in one-piece with 2 integrated straps to install on the post.
- Curved front to add any flexible coating with adhesion for signage in both sides, with a service life of 5 years.
- Resistance to inclemency and temperature changes, with UV-protection.
- Long lifespan, it doesn't rust.
- 100 % recyclable.
- Easy to install, (stainless steel strap).
- Tubular post, RHS or Posteflex (optional), finish in black color paint.
- Diamond or pyramidal finial.

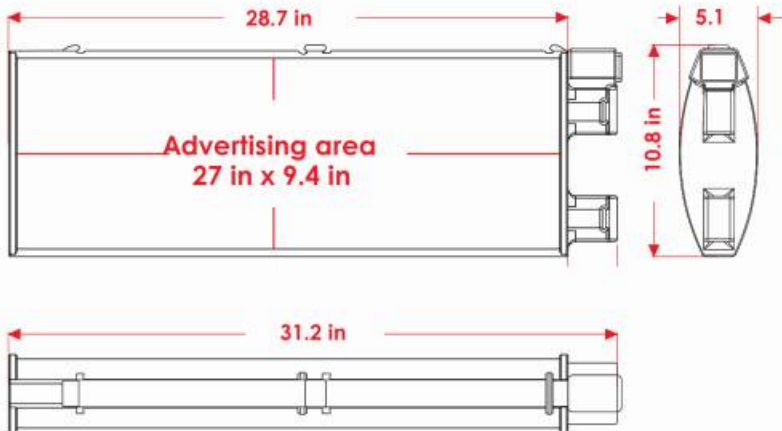

SOLAR TECHNOLOGY FEATURES

- 3V, 1.65 W; 2.3 x 28.3 in solar panel.
- Strip of 24 latest generation ultra-bright SMT LEDs in white color.
- Aluminum support for LED and heat sink.
- 4 "AAA", batteries of 1100 mA.
- JVM supply circuit.

Volumes, dimensions, and other measures are nominal and may vary by approximately 2%.
