## WHAT ARE UNIX PALLETS?

Excellent reboundable traffic signalise for guide, prevent and restrict drivers and pedestrians on accesses and roadways.

Perfect for display limits of risky areas and divide street, avenues room and provide safety to drivers. Also for different uses, as mark and create bicycle protected lanes.

Pallet Unix offer the following options:

- Pallet with customized messages in one or both faces (digital printing).
- Entire brilliant body with powerfull led illumination.
- Circular sign (leds lighten too) created with digital printing.

**Note:** Led illumination options includes acrylic mica and a coping atop with 4 photovoltaic cells, rechargeable battery 3.7V. and white ultrabright led cluster of a magnitude about 5000 °K and 250 lumens inside.

## FEATURES:

- A traffic pallet prevent accidents and confusions taking drivers attention on what is really important on roadways.
- This is because and efective signalisation, means an effective intepretation and response of any danger or warning ahead.
- Made out in polyethylene for support multiple impacts.
- Pallets keeps vertical by 3 support-base options:
  - Base made out in ABS, converts it reboundable.
  - Base with sand ballast, make pallet portable .
  - Post of hollow quadrangular tube 2" drowned on floor can make your pallet permanent.
- Printed messages on pallets are customizable.
- All pallet has black plastic body with UV rays protection integrated. Support all weather, humidity and heavy temperature changes resistant.

#### Measure with coping (for led illumination)

**Length:** 15,74 in.  
**Width:** 8,77 in.  
**Total height:** 47,83 in.

#### Measure with coping

**Length:** 15,74 in.  
**Width:** 8,77 in.  
**Total height:** 47,24 in.

#### Measure turtle base

**Length:** 21,65 in.  
**Width:** 14,96 in.  
**Total height:** 51,37 in.  
**Height w/coping:** 51,96 in.

#### Measure steel post

**Length:** 15,74 in.  
**Width:** 8,77 in.  
**Total height:** 61,02 in.  
**Height w/coping:** 61,62 in.

Measures are nominal and can vary,  
between +- 2%.  
All in inches and pounds.

#### Anchorage

#### On cement road

- "Ultrafix" screw hexagonal head 21 v Ø 3/8" x 5.9 in.
- "Extralarge" tacket Ø 0.7 x 5.31 in.

#### Anchorage System

Mark the three holes on ground for place post's base. Then perforate with a 3/4" drill bit down to a 7" depth. Once the holes are correct introduce the tackets and place the **Pallet Post**, settle screws with the 3/8" plane washers. Wrist them with a 9/16" nut socket and your traffic post its ready on site.

← "Ultrafix" screw hexag head 21 v Ø 3/8" x 5.9 in.

← Plane washer.

← Post's base

← Extralarge tacket Ø 0.7 in. x 5.31 in.

← Auger on ground
