SPEED BUMP WITH CAT EYE REFLECTORS
TR-EV-183

Features

* It reduces the speed up to 5 mph.
* It's completely solid which makes it resistant to heavy blows and impacts.
* It's immune to the environment and also its components don't damage it either.
* UV rays protected.
* Easy transportation both in weight and shape.
* It includes 5 anchors of Ø 1.17 in. for fastening to the ground.
* Reduces road risk.
* 4 cat eye reflectives: These give high visibility as far as 109 yards where they look like a light line.

Maintenance

It doesn't need any special treatments or finishes. Moreover, they clean easily any residue.

Duración

Its deterioration is almost imperceptible. It can maintain excellent use conditions for a long time even if it's exposed to the elements, humidity, saline, and acidic conditions. It has a longer life than wood, metals, and other materials.
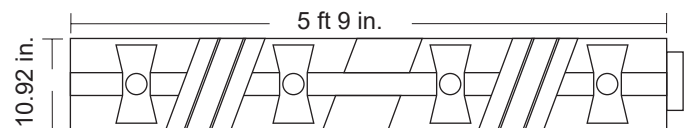

Installation.
- It's installed with 5 anchors (included). You need to bore with the help of a 3/8 drill into the marked area.
