

# ADVERTISING PARKING STOP

## TPES-P-184

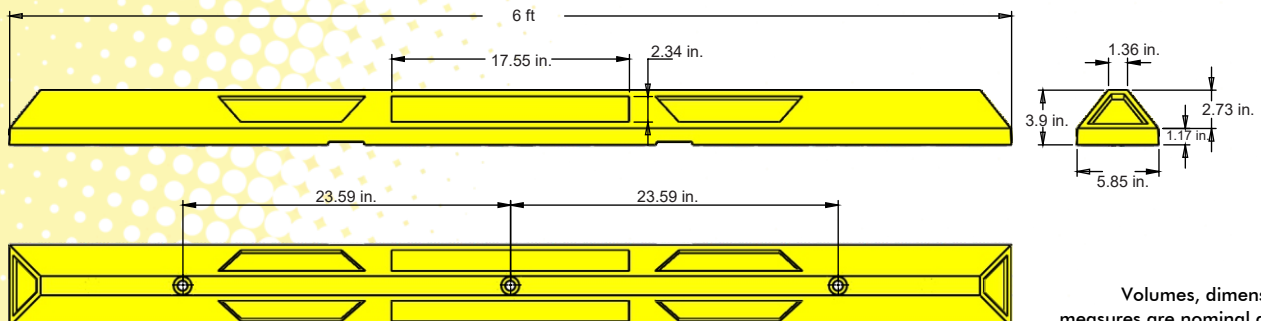

### Features

- Advertising parking stop.
- Made for restricted areas, exclusive lanes, etc.
- It's perfect to use in underground parking lots due to its reflective area.
- UV protection.
- The sloped sides avoid water accumulation.
- The advertisement area of 17.55 in. × 2.34 in. with high intensity reflective makes it visible day and night (optional).
- Three holes for its anchorage.
- Easy to install through steel anchors (not included).
- The advertisement area of the parking stop offers you an excellent strategy for a space to publicize your business or store.
