

Barricade 110 (decor)

BA-147-D

Leader don't follow steps ... marks the way

FEATURES:

- · Made out in medium molecular polyethylene.
- · Barricades are the most used traffic elements, helping to avoid dangers to the vehicle traffic and protecting works or public during road maneuvres.
- · Also are good for delimit and guide daily traffic.
- · Its height at "driver sight" level is another advantage to communicate messages.
- · Very visible color.
- Includes two or three reflective strips, securing its perception, in low luminosity like night darkness or by meteorological conditions.
- · Ideal for entrances and exits on parking lots, toll stations and else.
- Shocks and impacts resistant. •
- · Protection against UV ray and decoloration..
- · All weather resistant including extreme temperature changes.
- · Base is sand fillable to get more weight against wind.
- · Also we have an electronics version (BA-110-ELE) and the lamp option (LS-11).

* Made out in:	medium density polyethylene.
* Color:	fluorescent orange.
* Total weight:	17,63 lb.
* Base Oval weight:	2,75 lb.
* Base Deco weight:	3.3 lb.
* Body measure: Tota	al height: 41.73 in., Inferior length: 12.4 in.
	Superior length: 8.85 in., Width: 7.08 in.
* Measure Deco (base):	L: 24 in., H: 6.29 in., W: 15.74 in.
* Measure Oval (base):	Length:19.68 in., Width: 13.38 in.
Height (center): 3.62 in., Height (lateral): 2.75 in.	
* Base material:	medium density polyethylene.
* Color:	yellow
* Reflective (optional):	Engineering Grade
