

The perfect way
... to light up your path

WHAT'S A VANDAL-RESISTANT LUM-735?

- A vandal-resistant environmental lamp of 25 W or 50 W.
- A street light made of materials developed specially to fulfill the highest standards of resistance to external agents and street lighting vandalism.
- Proven durability through impact tests which gives it double resistance.
- Geolocation technology with a QR code for safety or emergencies.
- There are three models: one with a metal lid, another with a metal stripe, and the last one alone.

LCL MODEL

Features

- Its tubular body is designed in one piece and it's made of a special white polymer so the light floods through.
- It's weather-resistant as well to temperature changes. It also has UV protection.
- Vandal-resistant and anti-graffiti.
- You can attach it to a post with the help of a 4" tube 16 gauge with a 1/4" plate of 11.7 in. x 11.7 in. Black finish with powder coating.

ELECTRIC SYSTEM

- LED with really low electric power consumption. It's 100 % recyclable which makes it environmentally friendly.
- It has an on/off switch that works through its photoelectric sensor.

LED module with a linear arrangement	LED Chip 50 W
Input voltage	100-240 V
Power consumption	50.5 W
Half-life hours	50,000 h.
Lumens	4500
Electric control system	Instant photoelectric
Degree of protection	IP65
Degree of protection	IK10
Color temperature	6000-6500K
